

**Remarks**

In response to the requirement of restriction, applicant elects the claims of Group I, comprising claims 1-10, directed to a method of inhibiting corrosion.

In response to the election of species requirement, applicant elects the species 2-thiohydantoin, which has the structure set forth in the specification at the bottom of page 8.

The claims of Group I that read on the elected species are claims 1-10. In the event of possible rejoinder of non-elected claims 11-15, applicant wishes to point out that claims 11-15 also read on the species 2-thiohydantoin.

Respectfully submitted,

HENRY ALFRED CRADDOCK
